## Background and Investment Objective

Honeycomb Investment Trust plc (the “Company”) is a specialist lending fund whose investment objective is to provide shareholders with an attractive level of dividend income and capital growth through the acquisition of interests in loans made to consumers and small business as well as other counterparties.

The Company may also make investments in selected equity securities that are aligned with the Company’s strategy and that present opportunities to enhance the Company’s returns from its investments.

The Company believes that consumer and SME loans are an asset class that has the potential to provide active returns for investors on a risk-adjusted basis, and that changes in the focus of mainstream lenders together with the implementation of new models that make the best use of data, analytics and technology, provide an opportunity to deliver attractive products to borrowers while generating attractive returns for the Company.

The Company and the Investment Manager seek to acquire credit assets which meet the specified underwriting criteria through three routes; (1) organically originate and acquire through referral partners which source opportunities; (2) acquiring seasoned portfolios; and (3) providing senior and mezzanine structured loans secured on portfolios of consumer and SME loans. Partners include the UK’s largest unsecured loan broker; a UK retail point of sale finance broker; and a number of financial institutions.

## Investment Features

- Investment team has a combined 100+ years credit underwriting and consumer lending experience.
- 10% + targeted annual returns (after accrual for loan write-offs) on loan investments to the fund.
- 8% targeted dividend on issue price when fully invested and leverage applied, payable quarterly.
- 85%+ of net income distributed as dividend.
- UK Investment Trust tax treatment.

## Investment Manager's Commentary

The Company generated 0.56% NAV return per share under IFRS 9 and 0.54% under IAS 39 in May 2018. The Company has delivered 20.46% since inception on an IFRS 9 basis of accounting (effect of initial recognition on 2018 bought forward retained earnings impacts inception to date) and 21.16% on an IAS 39 basis. IFRS 9 has had a 0.70% impact on NAV since inception.

Results in the month were impacted by the Company carrying excess cash and below target leverage following the £100m capital raise in April 2018. At the end of May the Company had circa £54m of cash and £87.6m of drawn debt or a net debt to equity ratio of 8.4%. The underlying portfolio is performing well with strong cash collections and bad debts in line with budget, NAV return per share excluding the uninvested cash would've been 7.9% under IFRS 9.

The pipeline remains strong with a number of new opportunities expected to close in June which will utilise the cash balances. The Company has committed debt facilities in place of £150m plus an ability to upsize with the expectation of increasing the debt to equity ratio towards the target.

## Glossary

"NAV (Cum Income)" will include all income not yet moved to reserves (both revenue and capital income), less the value of (i) any dividends paid in respect of that income and (ii) any dividends in respect of that income which have been declared and marked ex dividend but not yet paid.

"NAV (Ex Income)" will be the NAV (Cum-Income) excluding net income (both revenue and capital income) that is yet to be transferred to reserves as described below. For this purpose net income will comprise all income not yet moved to reserves (both revenue and capital income), less the value of (i) any dividends paid in respect of that income and (ii) any dividends in respect of that income which have been declared and marked ex dividend but not yet paid.

Any income in respect of a financial year, which is intended to remain undistributed will be moved to reserves on the first business day of the immediately following year, meaning that each figure for NAV (Ex-Income) reported during a financial year will equate to the NAV (Cum-Income) less undistributed income which has not been moved to reserves.

"Share Price" closing mid-market share price at month end (excluding dividends reinvested).

"Premium / (Discount)" the amount by which the price per share of an investment trust is either higher (at a premium) or lower (at a discount) than the net asset value per share (cum income), expressed as a percentage of the net asset value per share.

"Net Assets" total assets minus any liabilities.

"Market Capitalisation" the closing mid-market share price multiplied by the number of shares outstanding at month end.

"Total NAV Return" is calculated as NAV (Cum Income) at the end of the period, plus dividends declared during the period, divided by NAV (Cum Income) calculated on a per share basis at the start of the period.

<sup>(1)</sup> On 17 November 2017, the Company entered into an amended Depository Agreement enabling it to delegate certain custody functions to the Custodian. The Depository is primarily liable to the Company and investors for losses of financial instruments by the Custodian, however, the Company and Investment Manager have permitted the transfer of that obligation to the Custodian in compliance with articles 21(13) or 21(14) of the AIFMD. The Depository has confirmed its intention to transfer such obligation and therefore the Custodian, and not the Depository, will be liable to the Company for a loss of financial instruments held in custody, but the Depository will take reasonable steps to pursue and enforce any associated claim on behalf of the Company.
